

To IFAGG members  
From IFAGG Council

6th of February 2023

Dear IFAGG members,

IFAGG Council wishes all you a happy new year 2023! Let's make this 20-years celebration year a great year together!

In order to continue developing our sport AGG towards the recognition of the International Olympic Committee, IFAGG Council decided to comply with the IOC requirements. For this we turn to you with a request to report the situation in your own countries. We kindly ask you to provide us some information how the situation is in your country with AGG. Is AGG recognized as a sport in your country, for example, by the National Olympic Committee or Ministry of Sports or another governmental institute? Is your federation or club recognized by some governmental institute?

IFAGG is willing to help you and your country to get this recognition if the help is needed. We are happy to provide official documents or certificates if they can help you. In this case, contact IFAGG Office ([office@ifagg.com](mailto:office@ifagg.com)). These national recognitions are very important to our sport so that we can one day achieve the next step internationally: to be recognized as a sport by the IOC.

Please, provide the information about your situation to IFAGG office ([office@ifagg.com](mailto:office@ifagg.com)) by the 20th of March. Together we make AGG known and recognized all over the world!

Yours sincerely,

IFAGG Council
